NHS scientists have warned that the new covid variant Omicron spreads rapidly, can be transmitted between fully vaccinated people, and makes jabs less effective. However, as the new covid varian (Omicron) has quickly become apparent, we have had to make new test kits as the new variant appears dormant in the original test kits.

What happen if you decline a COVID-19 Omicron test?

In this situation, we warned that testing is in the best interests of themselves, friends, and family. People who do not consent or cannot agree to a COVID-19 test and refuse to
